

### CASE STUDY A214-1: WORM – BRUSSELS METRO NETWORK

Customer	MIVB/STIB
Location	Maalbeek, Brussels, Belgium
Duration	2012-...
Application domain	Metro

Close to the station of Maalbeek in Brussel Metro Network, MIVB/STIB installed a WORM system for vehicle wheel flat and out of roundness detection. The tunnel has standard ballasted track and has limited access for maintenance to the WORM system.
